

INFORMAL SOLICITATION

Minnesota Judicial Branch Fifth Judicial District Administration

Description of Project

The Fifth Judicial District Administration is in need of a Process and Outcome Evaluation Plan for the Ignition Interlock Device Program (IIDP) being implemented in the 5th Judicial District. The counties included in the project are: Blue Earth, Brown, Cottonwood, Faribault, Jackson, Lincoln, Lyon, Martin, Murray, Nicollet, Nobles, Pipestone, Redwood, Rock and Watonwan. The contract period will be from October 2015 through September 2016 and may be extended for one additional year contingent upon receipt of continued grant funding. Total payment for services is not to exceed \$7,500.00 per year.

Background

An ignition interlock device (IID) is an alcohol breath testing unit that is linked to the ignition switch of a motor vehicle. The vehicle cannot be started until the driver provides a breath sample. If the device detects alcohol in the breath sample, the device locks the vehicle's ignition, thereby preventing the person from driving that vehicle. While Minnesota law strongly encourages the use of IID's for legal licensing, enrollment is still under 20%. Other states with similarly low installation rates cite the following reasons: judges unwilling to order IID; offenders are unable to pay for IID installation and the monthly fee; many offenders have no vehicles, and; monitoring offenders ordered to install an IID is time-consuming and difficult.

In March 2013 the Fifth Judicial District Administration was awarded a one year Ignition Interlock Grant from the Minnesota Department of Public Safety (DPS), with the possibility of continuation funding for an additional year. Under this grant the 5th Judicial District will implement a judicially administered ignition interlock program to be coordinated with the current DPS administrative ignition interlock program. A district wide implementation committee will be convened to design and implement the program across the 15 counties involved. Program components will include targeting first time adult offenders with a BAC of .16 and over and offenders with alcohol related probation violations; improving IID installation rates and monitoring; augmenting education and treatment; monitoring IID installations and quickly addressing violations; and providing financial assistance to eligible offenders to assist with the installation and monthly IID rental costs. Development of an evaluation plan will occur in the first year of the grant and the completion of the evaluation will occur in year two contingent upon additional funds being awarded for the project.

Duties and Tasks

The Fifth Judicial District is interested in having an IIDP process and outcome evaluation completed which follows and includes the elements of the Fifth Judicial District ignition interlock evaluation plan developed in 2015. A copy will be provided to the Contractor. The selected Contractor will be asked to complete the following tasks:

1. Develop or modify the current data collection plan, regularly report data (quarterly) and monitor adherence to the grant goals and objectives.
2. Conduct an assessment of program operations, implementation and overall service delivery including timeliness of service access and utilization (process evaluation).
3. Provide a final project summary report (electronically) that includes recommendations for program improvements.
4. To the extent possible, develop and report evaluation data elements which are consistent with the Ninth Judicial District ignition interlock program.
5. Optional: Attend DPS grantee meetings as needed (1-2 times per year).

Responders are encouraged to propose additional tasks or activities if they will improve the results of the project. These items should be separated from the required items on the cost proposal.

This Informal Solicitation does not obligate the state to award a contract or complete the project, and the state reserves the right to cancel the solicitation if it is considered to be in its best interest.
